Future Fair NYC May 1 - 4, 2024

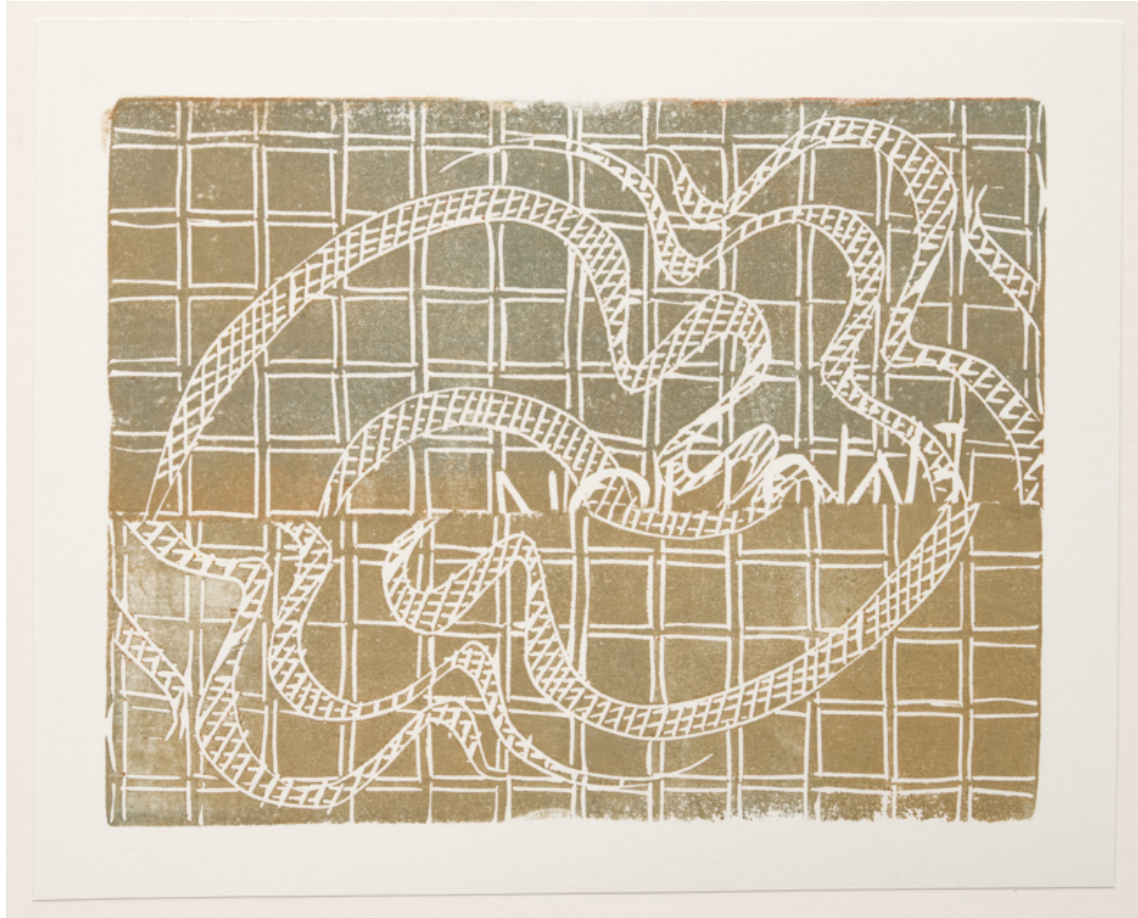

What started as greeting cards morphed into unique fully developed singular works on paper. Linocut allows for image elements that can be used over and over again in different combinations. Phrases, patterns, grids, buildings and landscape are layered to create surprising and harmonious compositions. The inspiration for these images include vintage flickering newsreels, drawings from my photos and textile patterns. Elements are printed in intuitive arrangements, allowing for randomness between these singular blocks to develop meaningful associations.

Joshua Aster: Born in Brooklyn in 1976, Joshua Aster is a Los Angeles based artist and abstract painter who received his MFA from UCLA in 2007. Aster focused on printmaking at the Slade School of Fine Art in London, UK. Composed of memories of place, patterns, and current events, his egg oil tempera paintings feature triangular grids that obscure specificity. He has been featured in numerous exhibitions including solo painting exhibitions at Cuesta College, Southwestern College, Edward Cella Art, Karl Hutter Fine Art, Carl Berg Gallery, and LAXART. His work has been featured in the LA Weekly and The Los Angeles Times amongst other publications. He was awarded a MacDowell Residency in September 2014. He is also a founding member of the artist collective OJO, and has presented work at the Museum of Contemporary Art. Los Angeles and LACE in Hollywood, CA. His 26 foot long painting can be seen at the W Hotel in Hollywood and see if you can catch his work on the 2022 Amazon Prime TV show, "Cosmic Love."
